EDUCATION

University of Georgia

Bachelor of Science in Computer Science

Minor in Design & Media

Athens, GA

GPA: 3.75/4.00

Expected May 2027

WORK EXPERIENCE & PROJECTS

UI Designer & Developer, T-Minus 5 Minutes

Jan 2025 – April 2025

- Developed a game in Unity using C#, implementing interactive UI systems and gameplay logic.
- Collaborated with a multidisciplinary team to iterate on usability and visual design, improving player experience.

Full-Stack Web Developer, ByteSized

Jan 2025 – April 2025

- Built responsive website with a team using React, Next.js, and TypeScript for a recipe and diet planner platform.
- Integrated front-end and back-end authentication flows to enable secure user access and data persistence.
- Focused on accessibility and usability for college students, improving navigation clarity and performance.

Peer Learning Assistant, Office of Student Success & Achievement

Aug 2025 – Dec 2025

- Supported undergraduate students in Web Programming by clarifying core concepts, debugging code, and reinforcing best practices, improving overall comprehension.
- Strengthened students' confidence and communication skills through one-on-one mentoring and guided problem-solving sessions.
- Collaborated with instructors in classrooms to provide tutoring support with course objectives and learning outcomes.

Research Technologist, Speculative Devices Lab

Aug 2025 – May 2026

- Prototyped experimental media projects using game engines and creative coding tools
- Developed interactive systems for XR and real-time environments
- Implemented a VR project through Unreal Engine with the usage of AI systems and real-time data

Game UI Intern, Castix LLC

Jan 2026 – May 2026

- Designed and implemented scalable UI systems for an MMORPG in Unity (inventory, dialogue, menus)
- Built dynamic, data-driven UI components integrated with real-time gameplay systems

UI Designer & Developer, Mirror Mirror

Aug 2025 – Present

- Designed and created original UI assets for a Unity horror game, establishing a cohesive visual identity aligned with the game's genre.
- Implemented and animated interactive UI systems in Unity using C# into responsive, gameplay-driven interfaces

CAMPUS & COMMUNITY INVOLVEMENT

IMPACT Service Volunteer, IMPACT-UGA

Jan 2025 – Dec 2025

- Contributed to community service initiatives focused on quality education, affordable housing, and sustainability through hands-on volunteer work in the Athens area.
- Led and coordinated a volunteer team in Charlotte, NC, supporting local schools by organizing and distributing classroom supplies to teachers.

Lead Facilitator, Girls Who Code

Sept 2023 - Present

- Develop and teach coding lessons for K–12 students in multiple programming languages.
- Promote gender equity in technology through mentorship and outreach initiatives.

Marketing Officer, She Can Code

May 2025 – Present

- Design promotional materials using Figma and Canva to increase engagement.
- Develop and maintain a responsive website in React to showcase organizational initiatives.
- Support mentor–mentee program of women in tech through digital outreach.

SKILLS

Technical: Python, Java, C++, C#, C, HTML, CSS, JavaScript, Typescript, RStudio, Unity Certified: Game Developer Associate, Unreal Engine, Figma, Adobe After Effects
